

Technical site plan for a residential development. The plan shows two proposed water supply options: IPOTESI A (Condotta approvvigionamento) and IPOTESI B (Condotta approvvigionamento). A gas distribution line (LINEA DI DISTRIBUZIONE GAS 1200 GHS) and a gas distribution line (LINEA DI DISTRIBUZIONE GAS 500 GHS) are also shown. The plan includes a parking lot, a road with a roundabout, and various infrastructure elements like a potabilizzatore (water treatment unit) and a local technical office (Ufficio Tecnico). A north arrow is present in the bottom right corner.
